## Langsdorff Is Rigidly True To Harsh Sea Code

By A. L. BRADFORD

British United Press Exclusive Cable to The Edmonton Bulletin  
**BUENOS AIRES, Dec. 20.—**Tall, debonair, Capt. Hans Langsdorff shared the destiny of his pocket battleship—the scuttled Admiral Graf Spee—by shooting himself to death today with a revolver.

True to the harsh code of the sea he had served as one of Adolf Hitler's ablest naval commanders, he had written a letter in which he said that from the moment he followed out instructions to blow up his pocket battleship the "Uruguay" to which he had been assigned to "share the destiny" of his vessel.

He had delayed, he said in a letter addressed to German Admiral Dr. Erich Feheler Von Tschirner, only long enough to make sure that the thousand young sailors under his command were satisfied that Hitler's orders to destroy the Graf Spee rather than let her fall into the hands of the British navy were carried out.

It was believed that he gave his orders to scuttle the Graf Spee to the men of his crew. He asked authorities at the Hotel De Immendorff to destroy a heart-to-heart talk with "my men."

They granted his request, possibly suspecting his purpose, and the Graf Spee, a German merchant as well as a battleship, the battle ground was cleared of all shipping was carried out.

The scuttling of the big liner and the pocket battleship and the flight into the Argentine port of Montevideo by the German freighter Arauco were held to be clinching evidence that Britain not only ruled the sea, despite German claims, but was a determined merchant as well as a battleship.

Admiral Langsdorff, a British citizen, was born in Columbus, Ohio, and said: "The German liner Columbus, 32,281 tons, is an sight of His Majesty's ships some 400 miles from the British coast set fire to herself and her crew abandoned her. No further information is available."

In the same port, the Columbus was the largest German victim so far of the Allied air war. Not in size, but in value, the British Warship, 8,250 tons, exploded in the Indian Ocean after having slipped out of a port on its way, it was believed, to the Argentine. Admiral Graf Spee at an ocean rendezvous.

Unofficial estimates were that the Columbus brought the total of German merchant marine losses since the war started to 41 ships, aggregating 1,000,000 tons. These ships had been scuttled. Four had been sunk, as the Admiralty put it, "in other ways." Sixteen

## PLANE ORDERS IN PROCESS OF FULFILLMENT

### Canadian Producers To Be Awarded Contracts Soon

By GRANT DEXTER

Edmonton Bulletin Ottawa, Bureau

OTTAWA, Dec. 20.—Canadian airplane producers are here today to receive contracts which will be awarded by the government possibly before Christmas. These orders will be for training, transport and cargo planes, and will include notably the Fleet and the De Havilland. The contracts are ready and able to make good on the promise.

The contracts, it is learned, will be for 800 trainers divided about evenly between those companies which have been producing 10 planes per week in January and will rise rapidly as the months pass. These companies make the planes required for the defense and training can be obtained from Britain without any delay. No figures on the cost of the planes have been given out, but the expectation is that Canadian firms will complete this contract in just over one year.

It is not expected, at present, that fighter machines and most of the other types of aircraft will be produced by British warship after crew partially scuttled.

# BACON BOARD PERSONNEL IS MADE PUBLIC

Announcement Made At Ottawa By Hon. J. G. Gardiner

OTTAWA, Dec. 20.—The bacon board on which the Canadian government has placed responsibility for carrying out terms of the new agreement with the King's Bacon Council has a supply up to \$6,000,000 pounds of bacon and hams weekly consists of Hon. J. G. Gardiner, Minister of Agriculture; Mr. E. T. Eccles, chairman; Mr. E. S. Tedder, secretary of the industrial development committee; Canadian Meat Packers, Toronto; L. C. MacLean, general agricultural agent; Canadian Packing, Montreal; Adrien Martin, Quebec department of agriculture; Quebec, and Mr. W. G. Ross.

Appointments of the chairman of the board was announced last week and today the agriculture minister Hon. J. G. Gardiner said an order-in-council had been passed confirming the board.

The chairman of the board is Mr. Paulin, chief of livestock inspection and grading service of the Dominion department of agriculture.

## ADVISORY COMMITTEE

The board will have the assistance of an advisory committee composed of Mr. W. G. Ross, Mr. J. E. Eccles, Montreal; H. Wilcox, Canning Cross, Ont.; F. H. Downing, Winnipeg; Mr. J. C. Ross, St. John's, Alta.; Mr. Bruce, Calgary; John T. Topley, Toronto, and K. N. M. Morris, Prince Edward Island.

The board will call for uniform payment by the United Kingdom of \$20.18 per 100 pounds of bacon delivered.

In a statement issued today by Mr. Gardiner it was explained that "a uniform price for bacon is necessary and is consistent with the seasonal cost of producing hogs, and the board, therefore, need to determine the price to be paid to packers for bacon deliveries at different periods throughout the year. While the price will be based on the price at which bacon is being purchased by the board."

## SEASONAL COSTS

"This means that, during certain periods, the price being paid for bacon will be below the contract price, while in other periods it will be above the contract price, thus providing hog prices more consistent with seasonal costs of production."

"It is in connection with the determination of seasonal hog prices that the members of the advisory committee will be most valuable to the board."

## FRENCH CLAIM FIFTY U-BOATS SUNK BY ALLIES

PARIS, Dec. 20.—Official French estimates today placed at more than 50 the number of German submarine sunk by the Allies since the war began Sept. 3.

The French officials estimated that when the war started Germany had some 60 boats and that at least 12 had been accounted for by French and British destroyers.

The latest figures ending last night to the 1310-ton destroyer Sirocco, which previously had sent two destroyers to the bottom in one week.

Naval experts have said the Allies were sinking 10 to 12 U-boats at the rate of four a week, twice as fast as Germany's capacity to replace them. This is the latest figure given with some 30 submersibles sunk.

French military sources reported today from line of the repelled 100-ton German raiders river between the Moselle and the Vosges mountains.

## Loss of Soviet Revenue To Cut League's Staff

GENEVA, Dec. 20.—The first cut-off effects of the League of Nations' financial action in cutting Soviet Russia from membership was felt here last night. The League's permanent staff of about 150 of the league's permanent staff of 500 would be diminished by 200.

During the Christmas recess, the league's budget for 1939-40, the league of more than 112 per cent. of its annual contributions, totalled about \$2,000,000. The Soviet share of about \$800,000 must therefore be carried out of league expenses—including salary allowances.

## United Reform Movement In Saskatoon Grew From Group of 20 Men, Women

SASKATOON, Dec. 20.—From a group of 20 men and women, who met in Saskatoon in September, 1938, inspired by a desire to unite people with reform ideas, a group, grew the organization known as the United Reform Movement, which carried Rev. V. G. Brown, after a winning victory over the Liberal candidate, Mr. Hayes, in the Saskatoon federal by-election on Monday.

Mr. Brown, of St. Andrew's Presbyterian church here, describing the origin and growth of the movement, yesterday, said that this group of people, recognizing the futility of reform groups fighting alone, decided to form a group.

At first, the group had been repre-

sentatives of the Trades and Lab-

or Council, the Co-operative Com-

mittee, the Social Credit Party and others.

They had considered that certain reforms

were essential for the good of the people and that the only way to bring about these reforms was to unite and fight for a common purpose, Dr. Brown, said.

NOT FAIR

It was called the United Reform Movement, and not Party, because there was no suggestion or desire that the reform parties, already in existence, should disappear, or that the members would lose their identity with the parties to which they belonged.

The United Reform Movement invited people from all parties, "with progressive ideas," to join with them. Many groups were organized and met in the homes of various people throughout the winter of 1938-39.

On Feb. 14, 1939, a public meeting was held in the Legion hall and 500 people attended.

The meeting was to decide what was to appoint a committee with instructions to call a nominating convention.

**SLOGAN ADOPTED**

Mr. Brown was nominated as candidate.

The movement adopted a slogan, "Untie My Country," which was taken up by the statement by uniting we probably will not be able to get all that all of us want, but we will get some of the things we want and get away from the things we will not get any of the things we want."

The following were the main points of the platform presented to the electors by Mr. Brown during the campaign.

1. Protective government control during wartime to prevent all profiteering in the necessities of life.

2. The defense of democracy, freedom of speech and of the press. Rigged enforcement of the right of labor to bargain collectively.

3. Determination to eliminate patronage and to curb the operation of monopolistic institutions in order to prevent profiteering in the

## Seven Points Of Perfection

## C. N. R. OPENS NEW STATION IN SASKATOON

### Official Ceremony Is Held With Dignitaries In Attendance

SASKATOON, Dec. 20.—Saskatoon's new Canadian National Railway station was officially opened to public service here Tuesday evening, with a formal ceremony in the spacious station when W. R. Devenish, general manager for the western region, cut the first long white streamer, and the station was dedicated to Mr. Hayes, in the Saskatoon federal by-election on Monday.

Mr. Brown, of St. Andrew's

Presbyterian church here, describing

the origin and growth of the movement, yesterday, said that this group of people, recognizing the

futility of reform groups fighting

alone, decided to form a group.

At first, the group had been repre-

sentatives of the Trades and Lab-

or Council, the Co-operative Com-

mittee, the Social Credit Party and others.

They had considered that certain reforms

were essential for the good of the people and that the only way to bring about these reforms was to unite and fight for a common purpose, Dr. Brown, said.

NOT FAIR

It was called the United Reform

Movement, and not Party, because

there was no suggestion or desire

that the reform parties, already in

existence, should disappear, or

that the members would lose their

identity with the parties to which they

belonged.

The United Reform Movement

invited people from all parties,

"with progressive ideas," to join

with them. Many groups were orga-

nized and met in the homes of

various people throughout the winter of 1938-39.

On Feb. 14, 1939, a public

meeting was held in the Legion

hall and 500 people attended.

The meeting was to decide what

was to appoint a committee with

instructions to call a nominating

convention.

**SLOGAN ADOPTED**

Mr. Brown was nominated as

candidate.

The movement adopted a slogan,

"Untie My Country," which was

taken up by the statement by

uniting we probably will not be

able to get all that all of us want,

but we will get some of the things

we want and get away from the

things we will not get any of the things we want."

The following were the main

points of the platform presented to

the electors by Mr. Brown during

the campaign.

**SUGGEST COMMITTEE TO STUDY PROBLEMS THAT WILL FOLLOW WAR**

HAMILTON, Ont., Dec. 20.—One of the first acts of the new Canadian government, which took office yesterday, was to appoint a committee to study the problems that will follow the entry of Canada into the war.

Mr. Mackenzie King, prime minister, announced Tuesday by telephone from Ottawa, that the committee will be headed by Mr. H. R. Macmillan, national conservative member for Hamilton, Ont., and will

represent Rimbouski continuously.

Mr. Macmillan, who has been

Minister of Railways since the

outbreak of the war, will be assisted by Mr. J. G. Diefenbaker, minister of

transport, and Mr. J. L. Crowther,

minister of agriculture.

Mr. Macmillan said he will

### Well Done

The first contingent of Canada's expeditionary force has landed in Britain, escorted safely across the Atlantic by Canadian and British warships and airplanes. This in itself is a tactical defeat for the enemy. Berlin either did not know the troop movement was under way; or despaired of launching a successful attack on the transports by pocket battleships and submarines; or did plan such an attack, which failed.

There is assurance in this that future contingents will make the crossing without molestation, as did the men who went overseas in the former war. German submarines of the present day are far superior to those of twenty-odd years ago, but there has been corresponding improvement in the types of vessels used to convoy transports, while the airplane is beyond comparison more efficient for scouting and fighting purposes.

With corresponding caution, the movement of troops to the old lands will be as successfully accomplished in this war as it was before.

### They Get the News

Canada, it appears, has been getting some attention in Germany and Russia. It has been put on the air by official broadcasters in both countries. The Nazi megaphones have been advertising French-Canadians to have nothing to do with the war; while Moscow quoted extracts from a Communist publication in Vancouver and cited the C.C.F. in that city as backing its claim that the wicked "imperialist" powers intended to make Finland a base for an attack on the inoffensive Soviet.

The moral of this is that Canada is not so far from Germany and Russia that things said and done here cannot be used there, and misinterpreted in the use, as material for propaganda. Canadians who have wondered why restrictions should be imposed in this distant country on the publication of information that might be useful to the enemy, may see the danger in these broadcasts. Authorities who have been over-lenient in disregarding statements reasonably construable as seditions may also be a reason why they should "tighten up."

So far, through some agency, Berlin and Moscow get news from Canada, the kind of news they particularly want for use or mis-use in discrediting the Allied cause. In the cases cited the news and views are not very important. But information that is important could travel by the same route.

### Not Fighting A Theory

Among the banalities recited by M. Molotoff to the so-called parliament of Russia was the maxim that "ideologies" cannot be destroyed by war.

Had he addressed the remark to Herr Hitler it might have had some bearing on the present conflict, which he was discussing at the time; for some of the Fuehrer's speeches seem to have breathed a hatred of the "idea" of democracy itself, and not merely contempt for the supposed inefficiency of that form of government. But it was to the Allies the Foreign Commissar tendered the information, with a hypercritical pretense that they needed it.

They do not need it, for the reason that they are not fighting an "ideology," but an actual, aggressive and unapologetic menace to themselves and all self-governing peoples.

With the Nazi theory of government the democratic states have no quarrel, and no right to quarrel. If the people of Germany prefer to be ruled by a Fuehrer, that is their business, exclusively. If they like being tyrannized, classified, graded, tagged, and hosed and bullied by a horde of officials supported by their taxmen, that also is their affair. If Herr Hitler and his associates had confined their activities to Germany there would be no war, unless a civil war.

All the Allied nations want is that the government of Germany, of whatever name, type and "ideology" mind its own business and leave other nations alone. M. Molotoff can stop the war at any time by obtaining assurances acceptable to sane-minded men that the wrongs committed by Herr Hitler and his associates upon other countries will be undone, and

that aggression will cease to be the motive and driving force of German foreign policy.

No one is better aware of this fact than M. Molotoff. Unfortunately it is a fact in which he does not seem to be interested.

### The Ice Has Stopped Running

The ice in the river has at last stopped running. The fact is not of startling world importance in these hectic days, but Edmontonians and Albertans generally will have to be pardoned for taking an interest in the subject. Not because they are consummately concerned in the particular day or date on which the Saskatchewan coat itself with ice, but because behind the unusual delay this year lies the fact that we have had an almost unprecedented stretch of mild fall weather.

It is, the record-keepers say, 43 years since the river was open at so late a date as the 18th of December—one week before Christmas—if that helps to set the fact in perspective. One might fairly argue that it is still open. But the ice has stopped running, and apparently is to stay stopped. The result of a colder, but only slightly colder, turn in the atmosphere.

And this weather business is by no means a matter of only sentimental or temperamental interest. The householder has welcomed winter's delay because it kept down the fuel bills. The farmer has welcomed it because his feed has held out better. On the other side of the account, the merchant has sold fewer fur coats and blankets than he hoped to dispose of. What the coal man and the gas company thought about it is better not asked.

So while the mild weather fans have had a good long run for their money, maybe the closing of the river means that the ants are to have their turn for a while. If so, nobody can very well object. After all, this isn't the banana belt.

### Editorial Notes

Herr Goering has only four more days to get to London to make that Christmas speech he promised the troops in Poland.

France has placed an order for 650 more planes with a United States firm. That kind of news is bound to get on the Hitler nerves after a while.

A woman near Portage La Prairie lit a fire with coal oil. She is dead, two children are in the hospital with burns, and the farm home is in ashes.

If the Graf Spee had been interned at Montevideo or Buenos Aires it would have been restored to Germany at the end of the war—if Germany won the war. Berlin apparently doesn't think positively that it is going to win.

### Fifty Years Ago

From the Files of the Edmonton Bulletin

A sneak thief entered the Methodist parsonage and purloined a quantity of beef.

Wheat is selling at Carmen, Manitoba, at 65 cents a bushel.

Public opinion in the United States continues in an excited state due to the disclosures being made about the practice of Mormon communism.

### Forty Years Ago

London—The Canadian government was sustained by a large majority in a debate in the House of Commons on the conduct of the Boer war. Some of the Opposition members complained of the methods used in prosecuting the war, and charged the government with playing for time rather than striving for victory. On a recorded vote, the government won by a large majority.

### Thirty Years Ago

W. J. Francis, consulting engineer of Montreal, has arrived in the city to investigate the civic needs and make a report to council.

Vancouver—The Hitler problem has taken on new significance in this province with the announcement that the Sikhs now here have arranged to bring their wives from India and found a permanent colony.

### Twenty Years Ago

OTTAWA: General strike in the federal cabinet is expected to take place early in the new year.

Japan has served notice on Great Britain that it intends to fight the Bolsheviks in Siberia and is negotiating with Washington for joint action. Japan says the Soviets is a menace to her safety.

### Ten Years Ago

During the last year there were nearly 10,000 Canadians who had been living in the United States have returned to take up permanent residence in Canada.

Edmonton's street railway had a surplus of 1000 men.

Edmonton 25 and 35 unemployed men, all residents of the city, marched to the city hall where they had a conference with city officials regarding relief measures.

McAlester, Okla.: Fifty bodies had been removed at noon from the Old Torn coal mine, where yesterday 62 miners were trapped by an explosion.

Because we want to walk with Jesus, day by day, we would be humble as he was. Save us, our Father, from all the pretenses of pride and vanity.

## Accused Tells Court Changed Name Legally To Spare His Family

James W. Duncan,  
Former Citizen,  
Dies In Victoria

A resident of Edmonton and well known among businessmen in the city, died at Victoria, B.C., Tuesday, according to a call received here. Death followed a brief illness. He was 40 years of age.

Native of Niagara Falls, Ont., Mr. Duncan came to Edmonton in 1908 with his wife. He attended the old high school on McDougall Avenue, now present site of the Memorial Hall. He first became associated with the Scott, Frost Co. and the Campbell-Wilson Co. before forming to retire and move to Victoria because of health.

Mr. Duncan was a partner in the diversified farm of O. A. Brown and Co. of Edmonton.

He is survived by his wife and one daughter, his mother, Mrs. G. W. Duncan, of Victoria, and his brother, G. H. Duncan, also of Victoria. Funeral services will be held at Victoria this week.

### Last Rites Held For Mrs. Hazlett: Was Pioneer Here

A large crowd of friends gathered at Howard and Friends Mortuary Wednesday afternoon to pay their last respects to Mrs. May Hazlett, wife of the late Harry Hazlett, 81 years, who died in the city Monday. Mrs. Hazlett was one of the first to settle in the city when it was being built. She died Monday evening in her home at 1006 10th Street, where she had been living for 20 years.

REBUKED BY CADRE

Magistrate Miller upheld the objection made by Hugh Calais Macdonald, K.C., that it could be a particular bearing to the accused to have the jury hear that he had been rebuked by the court.

The magistrate, however, ruled that the objection was not so serious as to require a mistrial.

The magistrate then pronounced each of the accused guilty of the charge of having been drunk and disorderly.

Rev. R. J. Burton, pastor of Strathearn Presbyterian church, officiated at the service.

Other survivors include his wife, Ross Sheppard, 1, Christian, H. Wonnocott, F. B. Clarke, W. W. Prentiss, and Ross Sheppard. Interment was made in the Mount Pleasant cemetery.

safety slogan: Double your caution in rain, snow, sleet or fog.

Alberta Motor Association: Wednesday road report: General light rain; all roads icy; drive carefully. Peace River road: icy; snowing at some points this morning; snow at Smith and Ferry at Big Smoky.

Hint of a dramatic story involving a man's pride of family and personal disgrace, depicted in police routine preliminary hearing of a man who has alienated his wife before Magistrate A. L. Miller, K.C.

W. E. Henry, charged with possession of drugs, was the only witness in the case. He had been in the city, died at Victoria, B.C., Tuesday, according to a call received here. Death followed a brief illness. He was 40 years of age.

Native of Niagara Falls, Ont., Mr. Duncan came to Edmonton in 1908 with his wife. He attended the old high school on McDougall Avenue, now present site of the Memorial Hall. He is survived by his wife and one daughter, his mother, Mrs. G. W. Duncan, of Victoria, and his brother, G. H. Duncan, also of Victoria. Funeral services will be held at Victoria this week.

## SCOTCH "NIGHT" IS PLANNED HERE ON DECEMBER 30

A real Scotch "nights" of entertainment and dancing will take place at 8 p.m. Saturday, December 30, in the I.O.O.F. hall on 103 street. The skirt o' the pipes and the Eight-  
son Reed is always attractive to the Scots, and those who enjoy these instruments will be in the house Saturday night.

Death followed a brief illness. He was 40 years of age.

## Presentation

JAMES D. BAKER

deputy minister of telephones and manager of the Alberta Government Telephone who was presented with a diamond ring and a diamond bracelet on the Royal Train during its tour in Alberta last June. The ring was presented by A. E. Coughlin, manager of the Northern Electric Co. here, in appreciation of the services rendered by the Government in the construction of the Bell Telephone System.

The phone used by His Majesty is now in the Dominion archives at Ottawa.

Mr. Baker is a student at McTavish school. Edith, his wife, is a graduate of the Highlands school.

Scholarships Are Presented To Two City Students

Annual convention of the Alberta Credit League will be held at Calvary on Thursday and Friday, January 17 and 18, according to J. A. Maurice, general secretary of the League. Members of the present executive will be present.

Presentation to Edith will be made in January. Edith also won the scholarship competition, which is open to the student with the highest academic standing in Grade 9. The Giro scholarships are each worth \$25.

## Premier To Spend Yule In Vancouver

Premier William Aberhart left Wednesday for Calgary to attend and speak at a luncheon meeting of the Alberta Fox-Fur Breeder's Association Wednesday night. He will then proceed to Vancouver to join Mrs. Aberhart and spend Christmas with his family.

The premier expects to return to the province on Jan. 5 and will speak at the Calvary Proprietary Bible Institute on Sunday, Jan. 1.

## Military Orders

ST. JOHN AMBULANCE BRIGADE, EDMONTON DIVISION No. 51, WINTER, DE-71—Stan F. Jack, acting Sec.-Treas.

## PENSION FUND IS UNTOUCHABLE CITY MAN TOLD

City employee contributions to the civic pension fund cannot be withdrawn before retirement but will increase in value at the rate of four per cent per annum, confirmed, was learned today, from Assistant City Treasurer Charles Simard.

Recently a civic employee who was contributing a portion of his pay to buy a three per cent of the pension fund asked to reduce it to one unit. In his pension account was a record of contributions paid on the two cancelled units.

He was told he could not have this unit removed but that it would remain in the fund, drawing interest. As he is now 30 years of age, he will receive \$100 a month when he retires at age 65.

At this point it is usually wise, in order to avoid disappointment, persons are asked to make arrangements in advance with the Dominion Boys' Club, Macdonald, K.C., council for the Edmonton Boys' Band.

The concert is being sponsored by the Edmonton Boys' Band.

City police are still seeking identification of an elderly man who was found lying unconscious near the 99 street intersection Tuesday evening and died shortly after the rescue hospital. Death was attributed to a heart attack.

The man was rushed to hospital in a Smith's ambulance. He was described as being between 56 and 60 years of age, weighing 163 pounds with dark grey hair. She had blue eyes, and a blue birthmark on her left cheek.

He was found lying on the youth was a third-rate fighter who slept on rubbing rags and was fed a ring of bread and water when he awoke as a clean boy.

REUBEN'S  
Gyro Scholarships

## Cyclist Hurt

Johnny Kovalash, 15, of 9225 10th avenue, received a blow on his head when he was forced to crash his bicycle into a car on a bridge, escape being hit by an auto near the 116 street intersection on Kingsway about 8 p.m. Tuesday evening.

The young man, who was riding his racing motorcycle and was in excellent condition with bruises, a slight head injury.

Police said the boy involved will probably bear marks of the collision, for the bicycle was completely wrecked by the impact.

## THIEVES WANT HIGH SPEED ON WHEELS, WINGS

There was a bad day for Ivan MacEachern, of 10348 98 street, who was bicycling to downtown while he was on his way to do some shopping. He discovered that someone had stolen it when he came out. It was valued at \$90 and with a special racing model, which he had, he discovered that 14 of his racing bicycles had been stolen. They were valued at about \$300.

At this point it is usually wise, in order to avoid disappointment, persons are asked to make arrangements in advance with the Dominion Boys' Club, Macdonald, K.C., council for the Edmonton Boys' Band.

## C.A.S.F. UNITS SETTLE DOWN TO CAMP LIFE

Troops in England Busy  
Accustoming Selves To  
Surroundings

BY GILLIE PURCELL  
Canadian Press Staff Writer

WITH THE CANADIAN ACTIVE SERVICE FORCE SINCE 1939

—Canada's volunteers in khaki turned in early last night, chased into their beds by the chill of unseasoned dampness, the in-hospitality of the blackout and a general desire to take up a more peaceful life after busy day.

The movement of Canadian troops over the ocean and in their camp, which was supposed to have been completed yesterday, was completed yesterday morning. The last of the steady stream of troops from the train of disembarkation from the ship, the *Empress of Canada*, arrived at 6 a.m. and the last of the 1,000 men to be sent to France.

Handcuffed to two detectives, Kehler, who fought under the name of Eddie Hailes, and his wife, Eddie, were among the last to be sent ashore when the *Empress of Canada* arrived at Grand Central station.

Michael Kern, assistant district attorney of Kern county, told reporters that the case was "all right" and that he would not prosecute.

According to the purposed confession, Kehler bludgeoned Dr. Engelberg to death in a blind fury when Dr. Engelberg refused to give him a drink of whisky.

The young man, who was a third-rate fighter who slept on rubbing rags and was fed a ring of bread and water when he awoke as a clean boy.

## LEADER ASKS NO ELECTION IN WARTIME

Farmer President States  
Change Would Disrupt  
Plans For War

SASKATOON, Dec. 26.—A vigorous plea that no general election be held during wartime, was issued Tuesday by Gordon H. Buckerton, president of the United Farmers of Canada.

"A change of government through a Canadian election could be an alarming disruption to the plans and contracts made or in the process of being made," he said.

Such changes would confer an inestimable moral advantage to the enemy, defeat the policy of Allied diplomacy and greatly endanger the lives and safety of our sons and fathers of other lands.

Mr. Buckerton explained that war fever had been fanned by the fact that the Canadian government had been re-elected with a front that emphasized a desire to break the spirit of the Canadian people.

The camp is in sharp contrast to Salisbury Plains of 1914 when men were bound under canvas in the mud, rain and snow, and suffered great hardships.

Today's camp consists of cozy bungalows offering comfortable beds, central heating, recreation facilities with reading, writing and billiard rooms, and all the comforts of home.

"Conditions are evidently satisfactory," stated an assistant colonel of the 10th Hussars, who has been in the camp since its opening.

Colonel G. L. MacNaughton, commanding officer of the 10th Hussars, said the camp has been well received by the men.

Colonel MacNaughton said the camp has been well received by the men.

## Looking Them Over

By Jack Kelly  
Don't Miss It  
Lester Speaks  
Fine Spirit

**A** YOU have probably noticed already, the Flyers and Elks fought again tonight out at the Arena. Now to be perfectly honest, I would offer to give a free trip to Honolulu to start tonight. I would pass up the game and leave for the pineapple paradise. However nothing short of the said trip will keep me away from the third round of this Elk-Flyer feud.

I can't remember any better hockey feed flourishing in these parts. There may have been one or two that were a little more bitter by playtime, but never any that were so hot so early in the season.

These two teams have only been at each other twice and already they are fending away like a couple mountain clans that have been warring their mad up for generations.

With the result of it being a rough and orderly feud. It is not one of those common everyday rivalries in which the players go out and hit their rivals' ribs full of the butts-ends of hockey shishabobs. These Flyers and Elks are playing for keeps. They know that the guy who gets cates and lands in the penalty box may be the cause of the team losing, they fight cleanly and as viciously as duellists trying to split each other on rapiers.

O'Keefe would sooner be sent to the hospital with a split noggin than take the raspberry that the Elks will hand him if his Flyers loose. Likewise the Elks will take a blistering that will make them squirm for weeks if the Flyers drub them. There isn't a player on either club that isn't sharpening up a few choice remarks to hand the other guy.

Right now I think the Flyers would probably beat any other club in the league with greater ease than these cheeky, confident Elks. The Co-operative kids figure they have the Indian sign on O'Keefe and his puck-wranglers. Tonight's engagement looks like one that will sit the marrow in your bone.

## Lester Wants To Know

**T**HIS OTHER night the hockey writers in New York had a dinner and Lester Patrick was given a seat at the top of the table. For some time the writers had been stressing the question: What is the matter with hockey? Lester took the bull by the horns, which is the only hold he could risk, and cracks back: "What is the matter with hockey? I didn't know anything was wrong."

He then seems to have taken most of the scribes out of their critical attitude. He argued that color couldn't be bought. He agreed that the game lacked really great stars at present but conceded that such players only came along once in a while and that NHL would get another crop sooner or later. He pointed out that advances were up everywhere but in New York and Detroit.

However there were a couple points that Lester diplomatically avoided. He overlooked the possibility of the managers helping the show along. Take the feud between Conn Smythe of Toronto and Ross of Boston. It has filled the arenas in both cities every time the two clubs play. Smythe tossed fresh fuel on the fire for the last game by advertising in the Boston papers that the folks in that cultural centre might enjoy seeing a real hockey fight if they were on hand when the Leafs and Red Wings met that night. Bostonians jammed the arena to see Toronto bashed.

Lester also avoided the fact that rugged individualism, the hallmark of great stars, is carefully discouraged in any recruit that comes up to the NHL. The moguls want nice young fellows who are agreeable to being a simple cog in a machine for you can buy a bunch of small cogs cheaper than you can get a super drive wheel.

Hockey can learn plenty from a master like Larry MacPhail of the Brooklyn Dodgers or the memoirs of John McGraw. Right now the trouble with major league hockey is that the yen for profits is short weighing the customers.

## Fine Spirit Of Co-operation

**T**WO letters came to my desk last night that seemed elegant and striking proof of the fine spirit of co-operation that exists between the Department of Agriculture of the Alberta government and the Alberta Fish and Game Association. . . . A situation that every sportsman will deeply appreciate.

Here are the letters:

Department of Agriculture,  
Edmonton, Dec. 10, 1939.

Mr. L. E. Wise,  
President Alberta Fish and Game Association,  
9018 115th Street,  
EDMONTON, ALBERTA.

Dear Mr. Wise:

I have greatly appreciated the valuable assistance which your association has from time to time, given to the conservation, protection and stocking of Upland Game Birds, and in recognition of such services, the Government has been pleased to grant to your Association a proportion of the proceeds from the recent Cuck Pheasant shoot in this Province.

I therefore take much pleasure in enclosing herewith a cheque for one hundred dollars, to carry on the good work sponsored by your members.

Wishing you the compliments of the season, I am

Yours very truly,

(Signed) D. B. MULLEN,

Minister of Agriculture.

Here is the reply of the Alberta Fish and Game Association:

Mr. D. B. Mullen,  
Minister of Agriculture.  
Dear Mr. Mullen:

The executive members of this Association and myself greatly appreciate the gift, and desire to publicly acknowledge the excellent work which is being conducted by the Alberta Fish and Game Association on behalf of good game and fish management. This association has received excellent cooperation and consideration to it many requests throughout the entire year, and deserve publicly to acknowledge this fact.

Yours very truly,

L. E. WISE.  
President.

## SP BULLETIN

### Another White Hope Is Set-Back

Looking up from the Flyer Ring is Steve Dudas, one of the holdings' team heroes. The men who are sent into the ring against up-and-coming young fellows to see just how good they are. Steve is looking up at Pat Comiskey, who has flooded him during their recent fight in New York. Comiskey, who possesses a record of 100 wins and 20 losses, has been routed as an opponent for Joe Louis at some indefinite future date, but plans were set back all the same. Steve is looking up at the canvas to take an eight-round decision and reveal a multitude of flaws in the Comiskey ring.

## Grim Flyers Promise Catastrophe For Elks

TONIGHT the bell at the Arena at 8:30 o'clock they'll ring the starting gun for the second game of Alberta's hottest senior hockey

feud. Flyers versus Olds Elks. Flyers won the first game 4-3 and Olds took the second 5-2.

Coach Frank Coulter of Olds was confident and carefree today.

"Well won tonight," he called it right away, he declared emphatically, "and a real good win it was. The Flyers are plenty tough but they haven't got the system in their play that we have—they haven't really mastered the fundamentals of hockey. I noticed their back-checking improved greatly after we beat them the last time. They are a good team and I expect the Elks tonight's game will do everybody good. The fans will see some real hockey, will pick up a couple of points and the Flyers may catch up with the world's best."

Coulters' Elks' players were silent—just like it is before a thunder storm starts crackling and booming.

"It's always a clean game out on the limb now," declared President Irene of the Flyers. "That's just where we want them for we're going to cut them like limb of the haystack tree tonight. Frank had better get himself a crash-proof helmet."

TONIGHT'S game will be the last for the Flyers in the 1939-40 season.
